DETAILED ACTION

Claim Objections

1. Claims 1 and 7 are objected to because of the following informalities:

With regard to claim 1, the words "to be" appear to be missing from line 6, "a second amplifying unit configured pumped by". Also in lines 6, 10 and 11, the phrase "amplified ASE" appears to be redundant, since ASE is an acronym for amplified spontaneous emission. Appropriate correction is required.

With regard to claim 7, on line 4 of the claim, the word "coupling" is missing in the phrase "a wavelength selective coupler pump light to the first amplifying fiber".

Appropriate corrections are required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim 1, it is unclear whether the ASE pumping the second amplifying unit is from the first or third amplifying unit, and whether the ASE pumping the third amplifying unit is from the first or second amplifying unit.

With regard to claim 9, in the first line of the claim "further

Claim 9 recites the limitation " the L-band pumping light" in claim 3. There is insufficient antecedent basis for this limitation in the claim(note that claim 3 mentions L-band light but not its *source*).

With regard to claim 12, on line 6, p. 16, words are omitted from the claim "signal from the second port of the and from the third port of the,".

With regard to claims 2-12, they are rejected as being dependent on a rejected base claim.

Allowable Subject Matter

4. Claims 1-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Feillens et al., Hwang et al, Park et al., Song et al., Willner et al., Yeniy et al., Yenjay, and Yoon et al.
